

THE DUCHESS

MEDIUM SOFT FEEL

FACT

BENEFIT

Tufted Sleep Technology

Helps to keep the mattress firm preventing body impressions and fillings from shifting and enhances durability and longevity.

Linear Pocket

The pockets springs are individually wrapped before being cold glued together.

Foam Encased

The spring unit is encased in a high density firm polyurethane foam as a reinforced edge support and zero sag.

Electronically Tempered

The pockets spring units are electronically tempered for more rigidity and to ensure a minimal compression set.

Pillow Top Technology

Non-Turn Pillow Top with  foam fillings for a luxurious comfort sleep.

Jacquard Ticking

Easy breathe anti-microbial, anti-bacterial and hard wearing properties to ensure optimum heat dissipation.

Hygienic & Non Toxic

All foams used in the manufacturing process are produced in-house at Strandfoam Group and is completely stable, non-toxic and Hygienic.

Non Turn Technology

Simple rotation of the mattress will ensure both comfort and longevity without having to turn the mattress
